# Who we are?

## 1.1 About TieWrap

TieWrap Is built on a strong foundation of business practice and healthy profitability. Its cornerstones are “Innovation, Resolution, Reliability and fierce dedication to quality”.

We are providing network communication equipment in Cairo – Egypt Since 2001, with our old name “ITM”, In December 2014, after some drastic management changes; there was a fear of maintaining our operations up, However, we were able to turn our risks into strength, and reached a stable & improved working environment. This improvement helped us develop our operations, and lead us into expanding even further, with our new name “TieWrap”

## 1.2 Our mission

Our mission is to provide high-quality and cost-effective IT services that meet our customers' needs.

Your problems and your needs are our priority. The most important aspect of our business is learning about your business needs.

We will take an in depth look at your business needs and your short and long term goals, And can guide you through the process of choosing solutions that fit your needs today while anticipating your needs for tomorrow.

## 1.3 Our Goal

Our goal is to become the leading regional provider of comprehensive range of IT solutions to our distinguished clients, who regard the computer solutions as an integral part of their business.

Our current products set include robust solutions in the software, security cameras, and network infrastructure.

We are able, through regional partnerships and joint ventures, to offer comprehensive, customized solutions

We provide solutions that assist your business in its everyday activities, we serve our clients no matter the size of their business, and we're dedicated to your business success.

## OUR SERVICES

Protect your home or business with Our security Solutions.

### 2.1 DVR security systems & Security Cameras

We are pleased to offer a broad range of video security equipment including several lines of digital video recorders (DVRs), network video recorders (NVRs), with remote viewing.

When connected to our DVRs security system all of our cameras can be accessed remotely from your smartphone, tablet or desktop. Allowing you to check in on your home or monitor staff at work wherever you are.

We provide “Indoor and Outdoor” security cameras “CCTV & IP” video capture, accessories and more. Whether the best solution uses analog and digital cameras, we are confident that our trained professionals can provide you with a surveillance solution to not only meet, but exceed your overall needs and expectations.

Surveillance cameras are a great way to provide security for your home or workplace. As well as providing you with video footage of any events which may happen, they also act as a visible deterrent to criminals. Our security cameras can be also set to be motion activated, recording footage when motion triggers them. Our range of cameras also includes wireless cameras.

We provide a huge range of surveillance cameras, ensuring there is one suitable for every budget. Our range runs from HD security cameras with 3 megapixel sensors, optical zoom, and pan and tilt functions, through to our great value our advanced series range.
